

Ingredients

Magnesium: Important nutrient especially for muscle and nerve function and helps repair DNA and RNA

Vitamin C: Essential for immune system function and is a powerful antioxidant

Calcium: Besides assisting with bone health, plays a role in circulation and muscle function

Vitamin B1 (Thiamine): Plays a central role in metabolism

Vitamin B2 (Riboflavin): Helps convert food into energy and is a powerful antioxidant

Vitamin B3 (Niacin): Important for metabolism and DNA repair

Vitamin B5 (Pantothenic Acid): Helps convert the protein, carbohydrates and fats you eat into energy

Vitamin B6 (Pyridoxine): Involved in amino acid metabolism, red blood cell production and creating neurotransmitters

Biotin: B vitamin important for the health of your hair, skin and nails

Vitamin B12 (Cobalamin): Vital for neurologic function and helps give an energy boost

Zinc: Essential for gene expression, immune function and wound healing

Glutamine: Most abundant free amino acid and energy source to improve gut immunity

Arginine: Amino acid that improves blood flow

Citrulline: Amino acid that works in conjunction with arginine and helps increase nitrous oxide bioavailability

Lysine: An essential amino acid important for growth and muscle turnover

Ornithine: Amino acid which helps remove excess nitrogen

Carnitine: Amino acid that plays a critical role in the production of energy

Manganese: Trace mineral critical for metabolism

Selenium: Essential mineral and power antioxidant, critical for metabolism and thyroid function

INNER BEAUTY

This infusion fights wrinkles and tired skin from the inside out.

Vitamin B Vitamin C Biotin

RECOVERY & PERFORMANCE

Speed up your recovery time and enhance your performance.

Vitamin B Vitamin C Glutamine Arginine Lysine
Ornithine Citrulline Carnitine Magnesium Zinc
Manganese Copper Selenium

VITAMIN C THERAPY

Allows higher blood plasma levels that cannot be obtained with oral supplementation. Helps support the immune system, fight infection, reduce inflammation and improve fatigue.

Vitamin C

GLUTHATHIONE IV PUSH

This is the most important and powerful antioxidant (toxin binder) in our bodies. Levels decrease as we age. Glutathione is critical to maintain optimal health, prevent disease and recover from chronic illness.

Glutathione

NAD+ (Nicotinamide Adenine Dinucleotide)

This substance plays the most critical role in energy production. It is a necessary cofactor for mitochondrial function. Boosting NAD+ may help a wide array of health issues, assisting with cellular repair. It has been found to have anti-aging effects and benefits the brain with improved mental clarity, concentration, and memory.

NAD

IV Treatments for Health & Wellness

At Krasnick Regenerative Medicine we offer alternatives for you to maintain your vitality and stay healthy. Ultraviolet Blood Irradiation (UBI) treatment and Ozone therapy help you enhance your immune system and decrease inflammation.

UBI AND OZONE

Ultraviolet Blood Irradiation (UBI) combines the application of Ozone Therapy with an ultraviolet light source. Your blood is mixed with Ozone and is exposed to UV light as it is infused. The combination is a powerful weapon when fighting against many chronic diseases by addressing the process at a cellular level.

Ultraviolet Light Ozone

OZONE AUTOHEMOTHERAPY

MAH or Major Autohemotherapy is a treatment that involves reinfusing your own blood after it has been mixed with Ozone. MAH has powerful healing capabilities as well as anti-inflammatory effects within the body. It is a powerful immune booster, improves circulation, and assists in recovery from injury.

Ozone
